

COUNTY DURHAM AUTISTIC SUPPORT GROUP

CDASG is a parent run charity. We provide advice, information and support for families and professionals. We run an informal advice line available to anyone seeking help, advice or information.

We arrange workshops and information days for parents and professionals. This provides local access to those working in the field of autism. We run three to four conferences a year which are always well attended.

We are affiliated to Contact-a-Family and have access to information and support from the National network. We can help local parents find the information and the support they need in areas such as education. We work with Local Authorities promoting awareness and improving services for people on the Autistic Spectrum.

Support group meetings are held monthly at Darlington, Bishop Auckland and Stanley, children are welcome. Our monthly newsletter provides details and up to date information.

Group activities for autistic children, siblings and their families are organised throughout the year. These include pool parties, soft play evenings and groups visits and trips.
